

4 May 1954

Memorandum For: Lawrence R. Houston

Subject : [REDACTED] 25X1A9a

25X1A9a 1. You asked me to look up any possible decisions of the Comp-
25X1A9a troller General which might have application to [REDACTED]
25X1A9a problem and also to talk to [REDACTED] concerning a rumor that the
military will pay for one month of [REDACTED] storage.

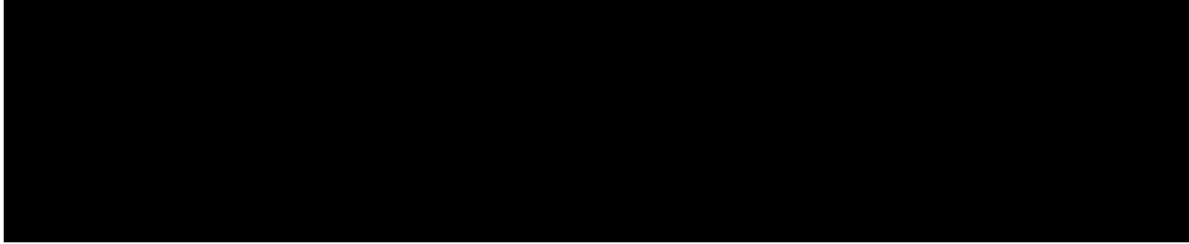

25X1A9a 2. I have checked the Comptroller General's decisions, and can
find only one which may have a bearing on this case. This one (31
Comp. Gen. 68) stands for the principle that Foreign Service Regu-
lations do not provide for payment of storage charges incident to the
termination of an employee. I have also talked to [REDACTED] on the
telephone and asked him for his reaction. Pat feels that, since this
employee is still working for the Government and since his travel was
for our benefit and at our request we should pay the storage charges
up to the limit of our statutory authority so that he will not have suf-
fered by reason of his detail to the Agency. [REDACTED]
